Overview of Company

Meomi Lighting Inc. based in Waterloo, ON Canada is a cutting edge smart lighting company which designs, engineers and manufactures innovative, contemporary and modern Decorative, Architectural, Custom and Commercial lighting fixtures and fans integrated with the most advanced features. Our commitment to integrity, passion and precision drives our ongoing service to our customers.

Our Impact

Our company was founded in 2019 by Romeo Das. In just a short period of time, we have established a solid foundation and presence in the US and Canada, completing more than 250 projects and a presence in 50+ cities. Our lighting products are highly energy efficient, helping our clients, end users and the world with considerable power savings and lower electricity bills.

Our Primary focus is embracing a new era of design that prioritizes energy efficiency at its core. In essence, our lighting products deliver exceptional performance while consuming minimal power, ultimately reducing our carbon footprint and promoting the goal of “Zero Emissions.”

Our versatile lighting solutions cater to a wide range of applications from Residential projects (Single-family, Multi-family, Low-Mid-High Rise Condos, Townhomes, Apartments, Senior Living, Student Housing), Hotels & Resorts, Casinos (Boutique, Essential, Premium, luxury etc), Restaurants, Retail and Commercial projects (Malls, Airports, offices, etc)

Core values

We have four core values that guide us in delivering excellence.

1. Design & Innovation

We remain deeply committed to providing our customers with modern/contemporary design and lighting innovation. Our lighting is designed around the latest in lighting technology and the most innovative designs.

2. Integrity

At Meomi Lighting, we believe in conducting business with integrity at all times. We like to treat others the way we want to be treated and that's with transparency, honesty, and integrity. Integrity is always at the center of everything we do.

3. Customer Success

Our customers determine our success. We are successful as long as our customers are. Hence, our focus is to ensure we listen and learn from our customers. We aim to understand their challenges and contribute to their successes by continuously challenging ourselves and solving problems for our customers.

4. Quality & Precision

No lighting product is complete without precision and quality in its build. We ensure, through our robust quality control process that each light delivered to our customers is built with precision using the highest quality materials.

Engineered Custom Solutions

Engineered Solutions is Meomi Lighting's premier lighting service. We harness our extensive lighting knowledge, engineering expertise and certification connections to develop and deliver tailored lighting solutions for our customers.

Our collaborations extend to end users, developers, lighting designers, architects and engineers. By actively listening to and understanding their unique needs, we're able to cater to a wide range of requests, from custom chandeliers and sconces to specific outdoor lights and application-specific products. In essence, our Engineered Custom solutions are your one-stop-shop for all your lighting requirements.

We've streamlined our process for simplicity, covering every step from design and engineering to prototyping and final product delivery.

Over recent years, we've completed several prestigious projects across North America, addressing complex and highly specialized lighting demands. Here, we've simplified our entire process for easy comprehension. If you're in search of a reliable and competitively priced custom lighting manufacturer, please get in touch with a Sales Partner in your region.

We at Meomi Lighting look forward to bringing your unique lighting vision to life.

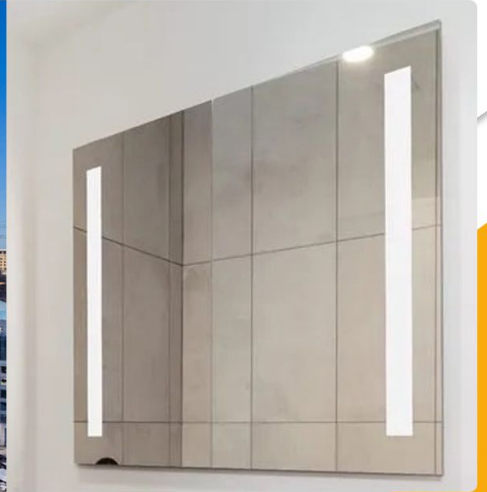

Project Reference

1. X - Phoenix - Phoenix, AZ

Project Completed: 2021

We were fortunate to have the opportunity to work on a beautiful project called X - Phoenix. We provided 1000 LED Mirrors to this Gorgeous and luxury Apartment with 26 stories. Our modern LED Mirrors with sharp design, top-notch quality, and amazing lighting create a wonderful luxury ambience.

2. Mindspace Wynwood - Miami, FL

Project Completed: 2023

Distribution Partner: Falcon Lighting LLC

Mindspace Wynwood in Miami is one of our exquisite high-end commercial projects, featuring private offices, privacy booths, and large suites. It also features pantry rooms, lounge areas, and a boutique meeting room with high-quality lighting fixtures. These fixtures include beautiful wall sconces, high-end ceiling fixtures, linear fixtures, and custom chandeliers. We've ensured that all of the lighting coordinates seamlessly to illuminate every space.

3. Gardens Towers - Bronx, NY

Project Completed: 2022

Distribution Partner: D&J Industries-NY

Gardens Towers is an affordable senior housing residence featuring custom chandeliers, wall sconces for corridors, damp-proof vanities and various lighting fixtures for common areas and apartments. This mixed-category project combines decorative, architectural, and commercial lighting to create an inviting space that makes tenants feel right at home.

4. Station Two22 - Mooresville, NC

Project Completed: 2022

Distribution Partner: Atlantic Coast Electric Supply-NC

This project offers end users a blend of simplicity and modern living with our many diverse lighting fixtures including our custom glass chandeliers and fans made from sustainable materials, that create a lasting impression of comfort and ease. Our custom glass chandeliers in the common lounge add a marvelous accent. Upstairs our high-quality, fabricated table lamps illuminate rooms beautifully, while our stylish fans enhance the space with cool air, lighting and an elegant look.

5. Lochwood Apartments – New Albany, IN

Project Completed: 2022

Distribution Partner: LED Indy

In this community project we utilized our lighting knowledge and expertise to create a serene, peaceful environment. Our chandeliers, scones, table lamps and fans create an appealing and delightful interior with a combination of warm white and cool white temperature lightings.

6. Le WITHIN – Montreal, QC

Project Completed: 2023

Distribution Partner: Transelem Industries-QC

Le WITHIN is a student dormitory project located in Montreal, QC. We provided unique lighting fixtures including Track lighting in common spaces, Pendant lightings for apartment units, cylinders, chandeliers in lounge and lobby areas. Our outdoor wall scones which come with IP65 rating illuminate outdoor spaces with full brightness. This project is a great showcase of our diverse portfolio of work.

7. The Flats and Terraces at Wildhorse Village – Chesterfield, MO

Project Completed: 2022

Distribution Partner: Guarantee Electric -REXEL USA

The Flats at Wildhorse Village exemplify a premium, luxurious apartment and townhome community. An elegant chandelier at the entrance and high-end diffuser vanities in the bathrooms add a touch of luxury. Custom pendant lights, under-cabinet lighting and pot lights brighten the kitchen, making it warm and inviting. Our LED fans and stylish table lamps enhance bedroom lighting, creating a calming ambience. The lighting design brings a modern, fresh and pleasing atmosphere with outstanding illumination throughout.

8. 698 Prospect – Pembroke, NC

Project completed 2021

Distribution Partner: Atlantic Coast Electric Supply-NC

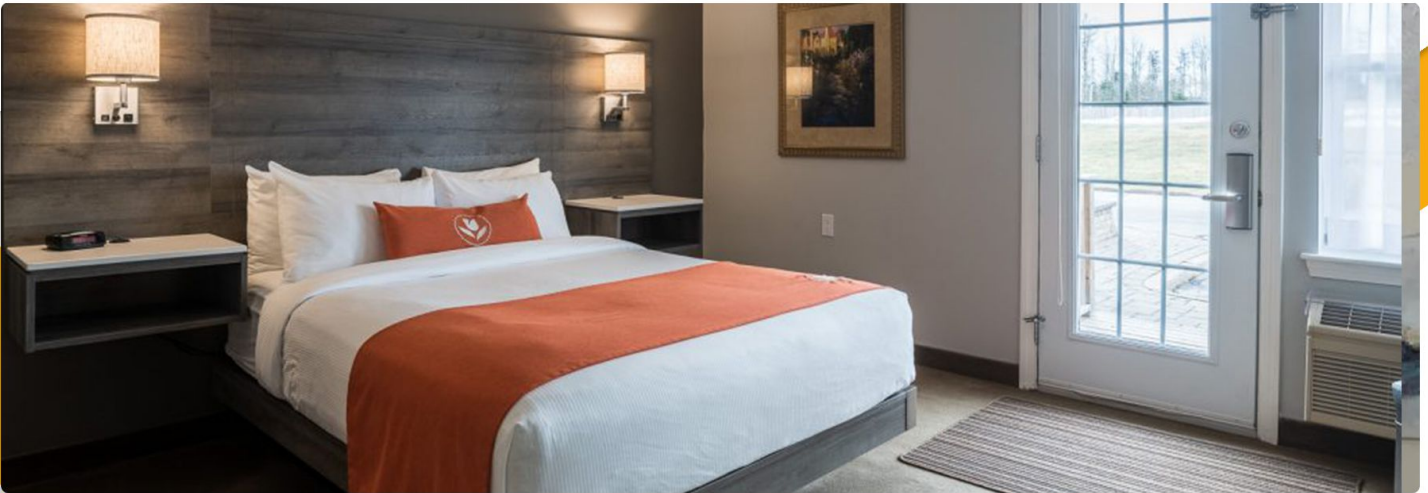

In this modern student housing project we provided our expertly designed pendants which illuminate the room spaces with elegance. The combination of pendant lights with flat panels and pot lights add a more modern finish to the kitchen area. Unique LED vanities along with pot lights create exquisite bathrooms and great light exposure even in the largest areas. Located in the heart of Pembroke, this project consists of a wide range of indoor and outdoor lightings which give a perfect illumination of a student environment.

9. Amsterdam Inn – Moncton, Canada

Project Completed: 2021

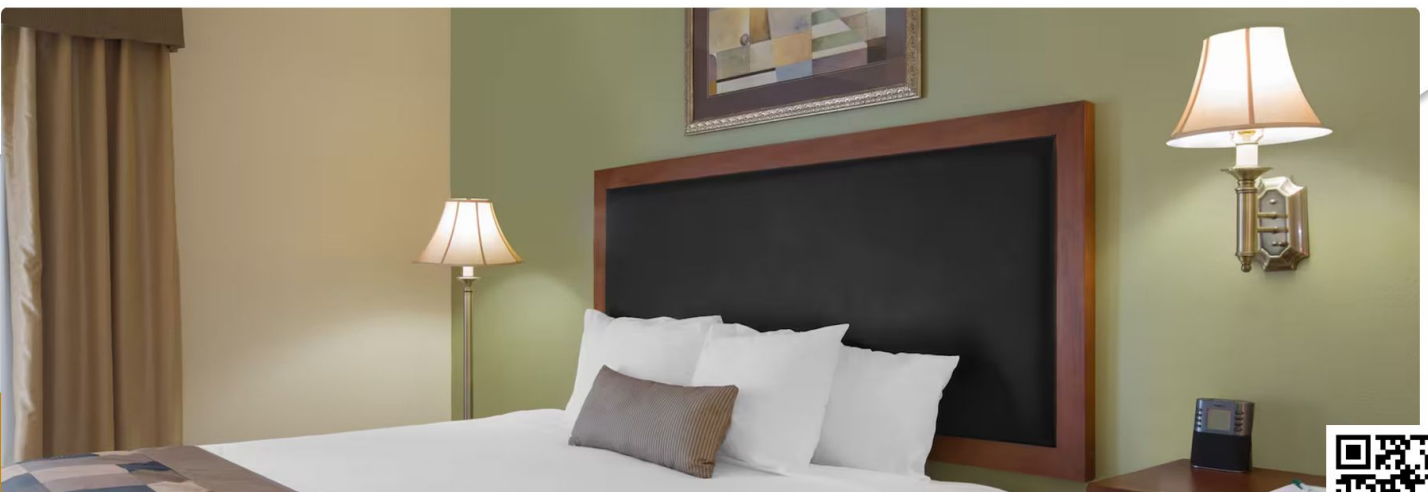

In this hotel project we provided a variety of lighting fixtures for the guest rooms, corridors and outer space areas. Our uniquely designed bed side lamps and table lamps beautifully illuminate the guest rooms while quality damp proof glass vanities with a metal finish make bathrooms feel brighter. Corridor spaces with cool white downlights and table lamps in the lounge area blend perfectly with the ambience of the hotel.

10. Wingate by Wyndham – Tuscaloosa, AL, USA

Project Completed: 2021

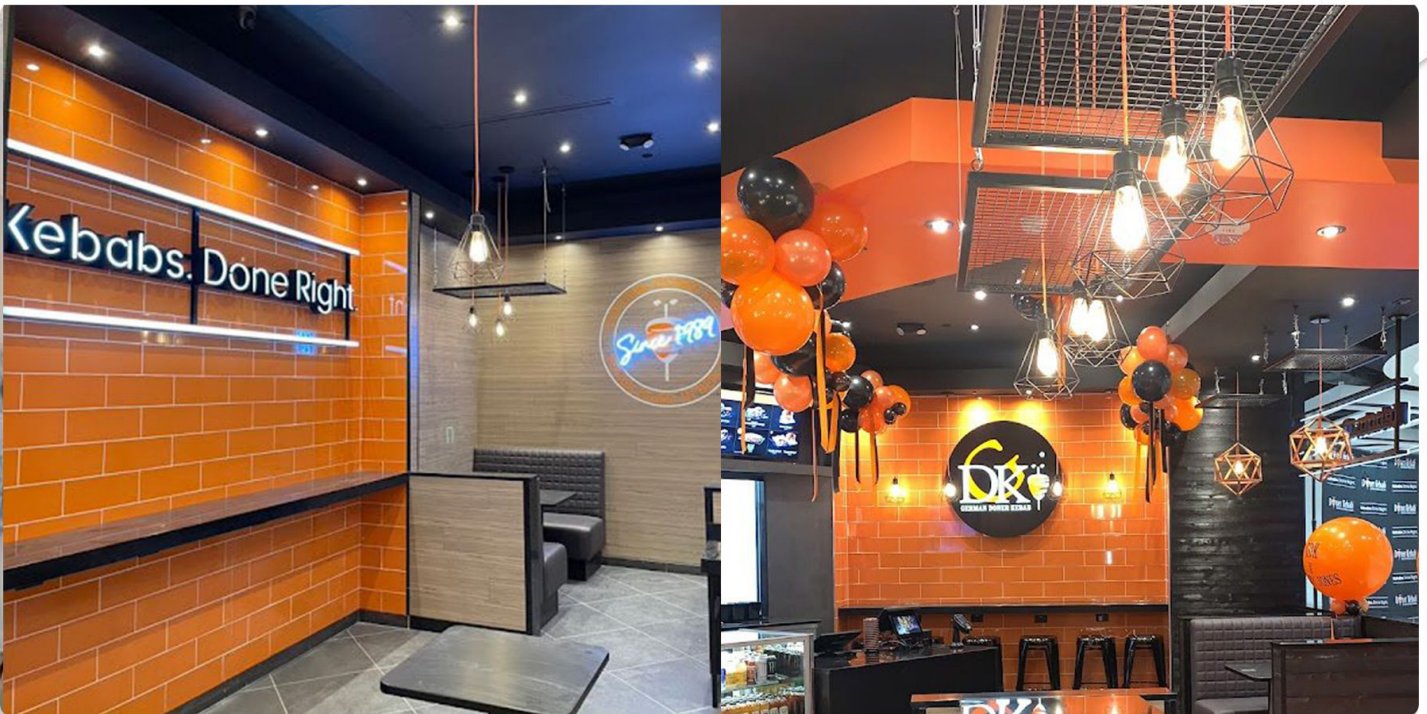

We were grateful for the opportunity to work on this hotel project by Wyndham where we provided fabricated floor lamps and bed side lamps for guest rooms along with high quality damp proof lamp-based vanities. The common spaces are illuminated by high performance downlights and outer spaces with waterproof wall scones creating an energy efficient and visually pleasing space.

11. German Doner Kebab – Various Locations

Project Completed: 2021 & 2022

We have national accounts with German Doner Kebab QSR brand for which we have provided custom built chandeliers and pendants along with commercial downlights and flat panels to make the whole restaurant feel elegant. These chandeliers and pendants were made with precise quality and design requirements as per the customers request. Metal finished octagonal shaped chandeliers with orange-black finish perfectly match to the restaurants ambience.
