Overview of Company

Meomi Lighting Inc. based in Waterloo, ON Canada is cutting edge smart lighting company which design, engineer and manufactures innovative, contemporary and modern Decorative, Architectural, Custom and Commercial lighting fixtures and fans integrated with most advanced technology and features. Our commitment to integrity, passion and precision drives our ongoing service to our customers.

Our Impact

Our company Meomi Lighting Inc. was founded in 2019 by Mr. Romeo Das.

In just short period of time, we have created a solid foundation and presence in US & Canada with more than 250+ projects completed with over presence in 50+ Cities in North America. As our lighting products are highly energy efficient, we are helping our client, end users and the world with considerable power savings and low electricity bills.

Our Primary focus is embracing a new era of design that prioritizes energy efficiency at its core. In essence, our lighting products deliver exceptional performance while consuming minimal power, ultimately reducing our carbon footprint and promoting the goal of "Zero Emissions."

Our versatile lighting solutions cater to a wide range of applications from Residential projects (Single-family, Multi-family, Low-Mid-High Rise Condos, Townhomes, Apartments, Senior Living, Student Housing), Hotels & Resorts, Casinos (Boutique, Essential, Premium, luxury etc), Restaurants, Retail and Commercial projects (Malls, Airports, offices, etc)

Core values

We have four core values that we strongly believe in while executing at work.

1. Design & Innovation

We remain deeply committed to providing our customers with modern/ contemporary design and lighting innovation. Our lighting is designed around the latest in lighting technology and the most innovative designs.

2. Integrity

At Meomi Lighting, we believe in conducting business with integrity at all times. We love to treat people the way we want to be treated, and that's with transparency, honesty, and integrity. Integrity always remains a non-negotiable value of ours.

3. Customer Success

Our customers determine our success. We are successful as long as our customers are. Hence, our focus is to ensure we listen and learn from our customers. We aim to understand their challenges and contribute to their successes by continuously challenging ourselves and solving problems for our customers.

4. Quality & Precision

No lighting product is complete without precision and quality in its build. We ensure, through our robust quality control process, that each light delivered to our customers is built with precision, using the highest quality materials.

Engineered Custom Solution

Engineered Solutions is Meomi Lighting's premier lighting service. We harness our extensive lighting knowledge, engineering expertise, and certification connections to develop and deliver tailored lighting solutions for our customers.

Our collaborations extend to end users, developers, lighting designers, architects, and engineers. By actively listening to and understanding their unique needs, we're able to cater to a wide range of requests, from custom chandeliers and sconces to specific outdoor lights and application-specific products. In essence, our Engineered Solutions becomes your one-stop-shop for all your lighting requirements.

We've streamlined our process for simplicity, covering every step from design and engineering to prototyping and final product delivery.

Over recent years, we've completed several prestigious projects across North America, addressing complex and highly specialized lighting demands. Here, we've simplified our entire process for easy comprehension. If you're in search of a reliable and competitively priced custom lighting manufacturer, please get in touch with a Sales Partner in your region.

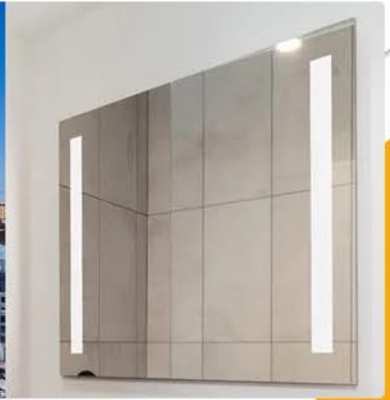

We at Meomi Lighting look forward to bringing your unique lighting vision to life.

Project Reference

1. X – Phoenix: Phoenix, AZ

Project Completed: 2021

We were fortunate to get opportunity to work on beautiful project called X-Phoenix. We provided 1000 LED Mirrors to this Gorgeous and luxury Apartment with 26 Storey in Arizona, X-Phoenix. Our modern LED Mirrors with sharp design, topnotch quality and amazing lighting change the whole ambience. Quality is something we always keep priority in all our projects. These modern LED Mirrors illustrate dynamic and elegant elements to interiors of luxury residence.

2. Mindspace Wynwood – Miami, FL

Project Completed: 2023

Distribution Partner: Falcon Lighting LLC

Mindspace Wynwood in Miami is our exquisite commercial project which comprises private offices, privacy booth, large suites, pantry room, lounge area, boutique meeting room in which we have provided high quality lighting fixtures such as beautiful wall scones, top end finished ceiling fixture, linear fixture, custom chandelier and more that illuminate common space, meeting room, corridor, entrance and other spaces at best.

3. Gardens Towers - Bronx, NY

Project Completed: 2022

Distribution Partner: D&J Industries-NY

New affordable housing residence for seniors named Gardens Towers is our recent project for which we provided alluring custom chandelier along with wall scones for corridors, damp proof vanities and other lighting fixtures for common space and apartment unit. This is an example of a mixed category project including Decorative, architectural and commercial lightings.

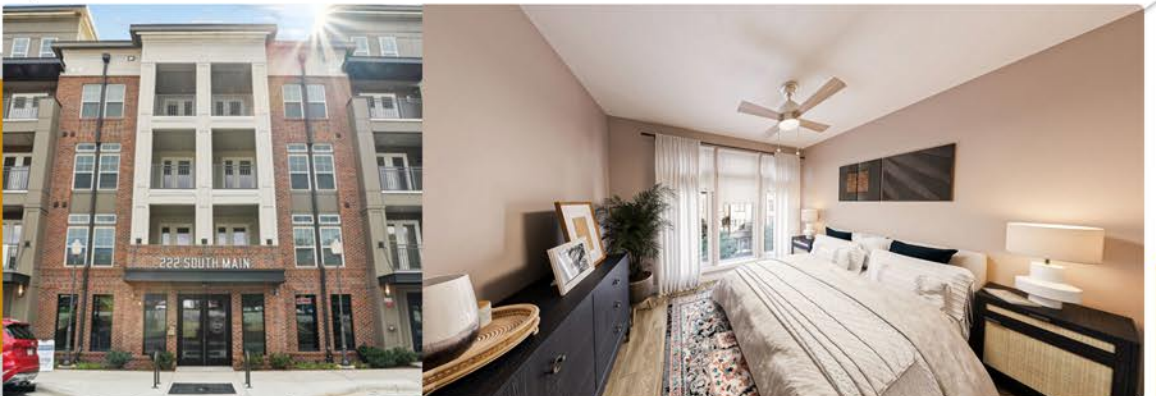

4. Station Two22 - Mooresville, NC

Project Completed: 2022

Distribution Partner: Atlantic Coast Electric Supply-NC

This project experiences the end user a mixture of simplistic and modern living environments with our varieties of lighting fixtures and fans made with sustainable materials leave long lasting impression of the most satisfying ambience to customers. Our unique custom glass chandeliers in the common lounge area make the ambience look marvelous. High quality fabricated table lamps illuminate room space magically. Moreover, our fabulous fans add extra shine to the room by its cool air, illumination and look.

5. Lochwood Apartments, New Albany, IN

Project Completed: 2022

Distribution Partner: LED Indy

One of our community projects describes the most peaceful environment one can expect. As you can see from photos, our chandelier, scones, table lamps, fabulous fans create an interior that looks so appealing and delightful. With combination of warm white and cool white temperature of lightings, it makes each space of apartment more suitable to feel. We consider this community project a great addition to our portfolio.

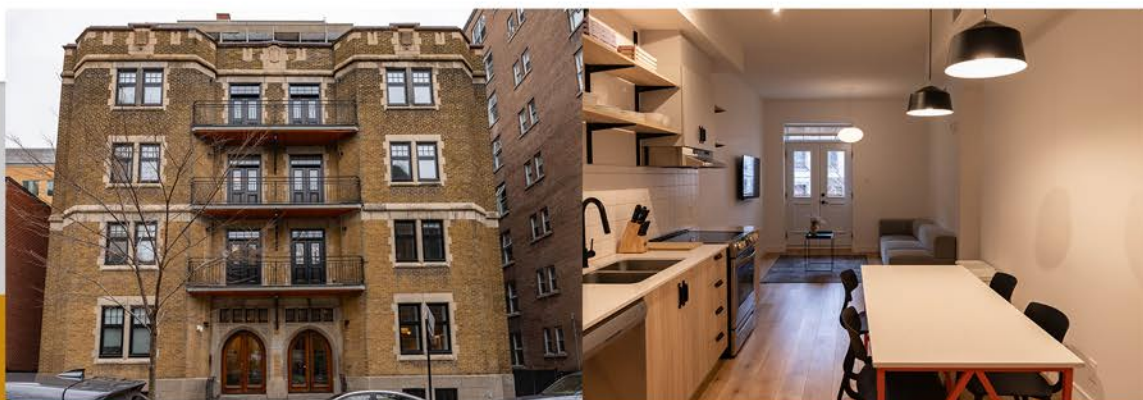

6. Le WITHIN – Montreal, QC

Project Completed: 2023

Distribution Partner: Transelem Industries-QC

Le WITHIN is a student dormitory project located in Montreal, QC. We provided unique lighting fixtures including Track lighting in common space, Pendant lightings for apartment units, cylinders, chandeliers in lounge and lobby area. Our outdoor wall scones which come with IP65 Rating can illuminate outdoor space with full of brightness. Truly this project is also an addition to showcase our diverse portfolio of our work.

7. The flats and Terraces at Wildhorse Village, Chesterfield, MO

Project Completed: 2022

Distribution Partner: Guarantee Electric -REXEL USA

The project at Wildhorse Village is a perfect example of premium and luxurious apartment and townhome community. Our elegant chandelier in the entrance makes the entrance more beautiful. Custom pendant light, under cabinet light, pot lights make kitchen space so bright and appealing. Our fabulous LED fans with gorgeous table lamps are a great addition to illumination of one's favorite place in home which is bedroom. Our high-end diffuser style vanities inside washrooms makes it more luxurious. To conclude the ambience became more modern, fresh and pleasing with our lighting. The result of illumination of lights is outstanding.

8. 698 Prospect – Pembroke, NC

Project completed 2021

Distribution Partner: Atlantic Cost Electric Supply-NC

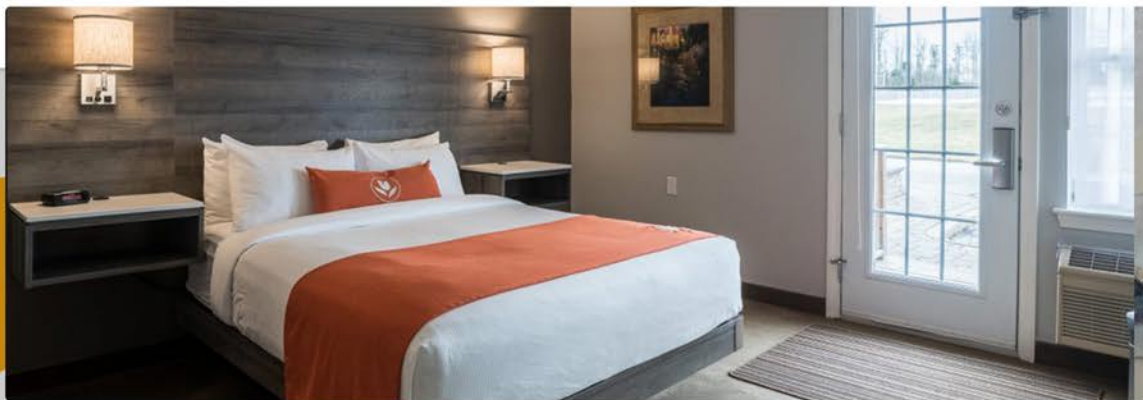

This is another modern student housing project for which we have provided nice contemporary designed pendant which enable room space with elegance. Combination of pendant light with flat panels and pot lights make it more modern finish to the Kitchen area. Unique LED vanities along with pot lights exhibit bathrooms with great exposure of lights to full area. Located in the heart of Pembroke, this project consists of all suitable lightings indoor and outdoor which display a perfect example of illumination and need to students.

9. Amsterdam Inn – Moncton, CA

Project Completed: 2021

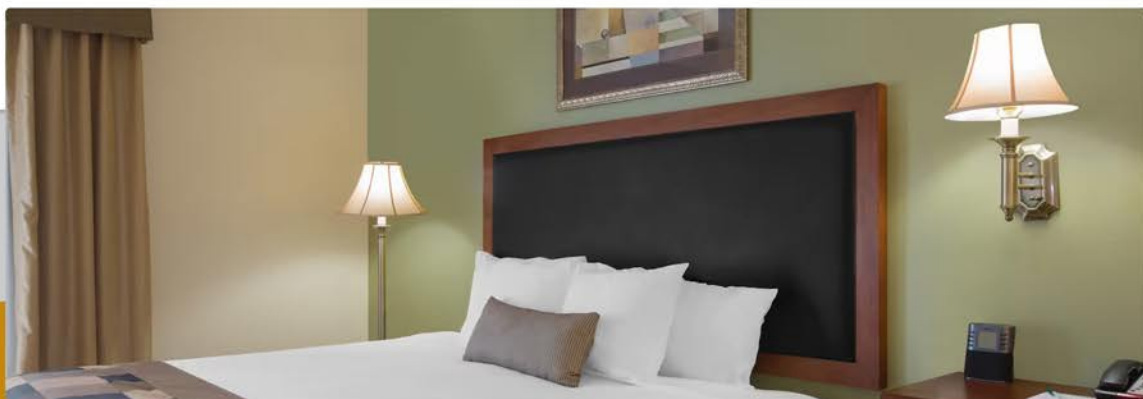

This hotel project where we provided varieties of lighting fixtures for guestroom, corridor and outer space area. For the guest room, our uniquely designed fabric material bed side lamp and table lamp makes the guest room full of suitable illumination one would expect. Vanities with glass material attached with metal finished fixture with damp proof quality make restrooms brighter. Corridor space with cool white downlights and table lamps at lounge area also blends with the required ambience of hotel.

10. Wingate by Wyndham – Tuscaloosa, AL – USA

Project Completed: 2021

We were grateful to do this hotel project by Wyndham where we provided well finished fabricated floor lamps and bed side lamps for guest rooms. Along with high quality damp proof 3 lamp-based vanity for bathrooms. The common space is illuminated by high performance downlights and outer space with waterproof wall scones. Indeed, we are happy to add this project to our work portfolio.

11. German Doner Kebab

Project Completed: 2021 & 2022 – Various Locations

We have national accounts with German Doner Kebab QSR brand for which we have provided custom build chandeliers and pendants along with commercial downlights and flat panels to make whole restaurant looks elegant. These chandeliers and pendants were made with precise quality and design as per the customer request. Metal finished octagonal shaped chandeliers with orange-black finish satisfy and matches whole ambience of the restaurants.
